Bunyamin A.
.NET Developer

TechHive
IT's simple with us

Professional summary

Experienced .NET Developer with more than 4 years of experience in designing, developing, analyzing, and implementing client-server, web, mobile, and desktop-based applications using different languages and their technologies. Capable of learning new programming languages and technologies and complete projects within specified deadlines. Good communication, analytical and interpersonal skills; ability to perform as part of a team as well as an individual contributor.

Education	National Aviation Academy Flight Engineer Bachelor degree
Courses	Step IT Academy, Software Engineer
Skills	.NET, .NET Core, ASP.NET, ASP.NET Core C/C++ JavaScript, TypeScript React Flutter, Dart SQL, NoSQL Github Actions, Azure Pipeline, Azure Functions AWS S3, AWS Lambda, Google Firebase OOP, functional programming, reactive programming SQL, NoSQL gRPC, REST, WebSocket, WebRTC MVVM, MVP Design Patterns, SOLID, Architectural Patterns

Project	**CustomAR**
	Video recording and streaming. This project allows users to order video recordings, video streaming from a celebrity for special occasions.
Period	Sep 2020 - now
Role	Software Engineer
Technologies	.NET Core, Flutter, gRPC, WebRTC, Python

Responsibilities

- Built RESTful API architecture for new features
- New features and functionality development
- API development
- Unit and integration testing
- Fixing bugs

Project	School bus
	Application allows parents to track their children's locations and schedule attendances for their children, drivers to track directions to each stop, and notify parents about rides.
Period	Sep 2017 - now
Role	Software Engineer
Technologies	.NET Core, .NET, Firebase, AWS

Responsibilities

- Software development of the company's mobile app for driver, parent and admin
- Trouble-hot and fixed any threads and bugs
- Communication with clients to provide knowledge, expertise, and support, ensuring that their requirements were fully met
- Worked on the improvement of all programming procedures in order to make the whole software development process more effective

Project	Step IT Academy
Period	Apr 2018 – Jul 2020
Role	Programming Instructor
Technologies	.NET Framework/Core, T-SQL, ASP.NET Core, Design Patterns, SOLID

Responsibilities

- Encouraged students with special academic interests to fully pursue those subjects.
- Adapted teaching methods and materials to meet students' varying needs and interests.
- Taught the following courses: Procedural Programming with C, Object-Oriented Programming with C++, .NET Framework/Core with C#, Win32 API, Windows Forms, Windows Presentation Foundation (WPF), T-SQL, Database theory, ASP.NET Core, Design Patterns and SOLID

Project	**AG development**
	KOB is a government organization that helps business developers to grow. The application was developed for solving entrepreneur's problems by connecting them with responsible Ministries. CityTaxi was one of the most famous taxi companies in Azerbaijan. The client application allows clients for ordering a taxi with online and cash payment, driver application allows drivers to get orders and track their balances.
Period	Mar 2019 – Oct 2019
Role	Software Engineer
Technologies	.NET Core, MVC Pattern, Git

Responsibilities

- Development of the company's mobile app
- Task review and estimations
- Control of code quality
- Data parsing
- Design and administration of databases
- Features development
- Unit and integration testing
- Performance improvements
- Troubleshooting
- Fixing bugs

Project	ServeCube
Domain	Travel
Period	Nov 2018 – Jun 2019
Role	Software Developer
Technologies	.NET Core, ASP.NET Core 2.2

Responsibilities

- Development classes in Business Layer and in Data Access Layer in C#
- Development of the flat rentering service
- Development of the payment microservice
- Executing development processes for the project such as build automation, unit testing, software configuration management and packaging
- Maintenance of workflow tasks that are used to control development
- Participate in product envisioning discussions and provide inputs from development perspective for shaping up overall product strategy
